Microsoft .Net Framework 2.0 Operating system component, needed for normal work of Ideal Sorter. It is included in most part of modern operation systems, but you also can install latest version separately. It may be needed, for example, if you don't have .Net 2.0 or have outdated version. If you see message like this: ".Net Framework Initialization error; To run this application you first must install one of the following versions of .Net Framework ..." - just install .Net Framework now.
