

## My music collection in order thanks to Music Sorter!

Hello! I want to speak with you. My alliances name me cranky because I like Afro-jazz. My name is Barbara. I am fifty five. On my computer is installed Music Sorter . And I permanently sort African melodies .My husband said that in my age I should to hear MP3 Classical music, because with my Music Sorter I always can sort music of any century and any singer. But my Ideal MP3 Music Sorter is ready to sort modern music. Not long ago granted my wish. I visited beautiful Africa. My iPod music player with built-in Dictaphone was with me. Africa met me hot heat and everywhere sounded music.&ldquo;My Music Sorter must work very much&rdquo; - thought I. Everywhere was exotic nature and flew birds with nice feathers. Africans are very comical people. They always smile and are listening MP3 music. They use Music Sorter too. My Music Sorter must introduce proper order in my music collection thought. When I returned at home I told my friends about my adventures. My Music Sorter sorted all music melodies. I was happy. In the evening we heard Afro-jazz and I said: &ldquo;Thank you very much, my dear Music Sorter&rdquo;. It is good, when my music collection is in order. Barbara Batline from Otselic, New York
