

With Music Sorter I had cognized music of Africa

Good evening! I want to have a talk with amateur music. My name is Paula. I have very big music collection. Best of all I like African music, especially Afro-jazz.

Music Sorter I start to use three years ago when I understood that without Music Sorter I will waste time. And I understood that in my collection without Music Sorter there will not be order. One day I wanted to sort by hand my music albums. I was striving within an hour and I've done nothing. Without Music Sorter I had very much problems. Now I conduct dancing programs every day and I have no problems with sorting of music because I have Music Sorter.

Ideal MP3 Music Sorter always relieve me. Sometimes I reenact movements of different animals, for example of tiger or elephant. I slowly move legs and by hands, when music is playing. My heart begins quickly thunder, my pressure become change up. And I soon begin to feel myself younger in years. Sometimes with Music Sorter I find melody the ancient African tribes. I dance to music as if wind or sea wave. With Music Sorter I for an hour ten times switch over to one melody on other.

My mood became in a good. Sometimes at me came my friend and we with Music Sorter sorted music, which allows feeling ourselves full of energy. Sometimes I think, that music, sorted with Music Sorter, have magic.

I am happy, that with Music Sorter I cognize music of Africa. Paula Merkl from Blue Lagoon, Florida
